

Automatic Open Top Can Sealer SKM-series

Soft and safe, the pop can is becoming increasingly popular because it can effectively avoid damage during transportation. Our automatic open top can sealer is specially offered to install the aluminum lid onto the cans, to meet the customer demand.

Features:

1. The can seamer integrates various process flows to realize full automation.
2. It comes with touch screen installed with PLC system.
3. A temperature controller is designed for the automatic open top can sealer to regulate and display the temperature.
4. Efficiently, the can seaming machine has the productivity up to 200 cans per hour.
5. In addition to the high productivity, the can sealing machine enables tight sealing by virtue of the high pressure, low temperature and the short pressure holdup time.
6. Automatic open top can sealer with embossing function is available from us if required by customers.

Technical Parameters:

Model	SKM-B2	SKM-B3	SKM-B4
Production Capacity (PCS/ Hour)	1500-3600	2400-5400	3000-7200
Power (kW)	20	28	35
Air Consumption (m ³ /min)	0.3	0.4	0.6
Machine Weight (kg)	3	4	5
