

SFCZ-12 Automatic Weighing-type Liquid Filling Machine

Feature:

- Advanced HMI operating system, PLC control, automatic counting of incoming bottles, automatic peeling and weighing for filling
- This equipment is used for weighing and filling of products with demanding requirements on measuring, such as edible oil, lubricating oil, daily use chemicals and chemical industrial products as well as liquids with high additional value.
- The equipment has high automation and precise metering. Each filling head is

Application:

- It is used for weighing and filling of liquids in different bottles and containers for food, medicine, cosmetics and chemicals.

Technical:

Item	SFCZ-12
Filling range	1000-5000ml
Filling speed	300 bottles/h (1000ml)
Filling precision	±1%(1000ml) ±0.5%(5000ml),
Applicable bottle diameter	φ90-160mm
Power	AC220V/50/60Hz 3.5KW
Weight	1350kg
Pressure range	0.6-0.8MPa
Host dimension	4300×1500×2300mm
