

## YODM 180 Sachet Packaging Machine

YODM/180 Sachet Packaging Machinery is full automatic machinery with PLC control which designed for producing 3 or 4 side sealed packs. Filing System for the machine produces as Volumetric, Auger (Screw) and/or Liquid filling system according to the products to be packed Filling volume of the machine is between 10-200 ml The main usage area for this machine is to pack products like spices, sauces, soup mix, tea, coffee, cream, ketchup, mayonnaise, yeast powder, shampoo, etc.

### Technical Details:

<b>Filling System</b>	Volumetric, Auger Filler, Liquid pump
<b>Products</b>	Spices , sauces, soup mix, ketchup,mayonnaise, yeast powder etc.
<b>Weight range</b>	Max 200 ml
<b>Type of Packs</b>	3 or 4 side seal sachet packs
<b>Packing Speed</b>	40-90 ppm
<b>Packing Material</b>	OPP, CPP, PET, AL, MetOPP and other all kind of laminated film
<b>Min. Width and length of the package</b>	40*50 mm
<b>Max width and height of the package</b>	145*180 mm
<b>Max bobbin width</b>	340 mm
<b>Bobbin inner diameter</b>	76 mm
<b>Max. bobbin diameter</b>	400 mm
<b>Machine dimensions</b>	90*180*240 cm

<b>Machine weight</b>	650 kg
<b>Mechanical Control System</b>	Servo Control
<b>Pneumatic systems</b>	Festo
<b>Electrical system</b>	SIEMENS
<b>Power supply and consumption</b>	380 Volt AC / 3 Kwh
<b>Air supply and consumption</b>	6 bar / 100 Lt/min.
