

## Tea Packing Machine VT-100-CF

Vista Technopack Machines offers versatile packaging solutions to its customers across country. The tea packing machine is one of the automatic packing machine which with the help of powder filling machine helps in filling tea in the packets with full accuracy along with total hygienic maintenance and thereafter packing the tea in desired amount. The machines are designed in such a way that freshness and quality of the tea is maintained while filling and packing, hence no moisture or foreign material enters in it.

The Tea packing machine is one of the successful products and very well liked by various tea manufacturing companies for their daily use.

The hygienic packing increases shelf life too as manual handling reduces shelf life and wastage of material is also there. The automatic packing machine also makes the work organized and reliable.

### Product Details:

Model	VT-100-CF
Minimum Order Quantity	1 Unit
Machine Capacity	5000-6000ppm
Brand	VISTA
Driven Type	Electric
Automatic Grade	Automatic
Power(KW)	2.5kW
Condition	New
