

Granule Heavy Bag Packing Machine MCKLZD25K

Pellet heavy bag packaging unit (high-speed machine)

Technical features:

The unit has the functions of automatic weighing, automatic bagging, automatic filling, automatic bagging, automatic sealing and so on. Can work with all kinds of particles, sheets and other material equipment linkage, to achieve large size packaging unmanned production operations.

Technical parameter:

| Model | MCKLZD25K |
|-----------------------|---|
| Packing material | 1. Woven bag; Kraft paper bag; 3.3. Composite film plastic bag |
| Packing size (L×W) mm | (800~1000) × (450~550) |
| Packed weight | 25~50kg/bag |
| Measurement accuracy | ±10g |
| Measuring Speed | 10~20包/分钟 (According to the packing material, the bag size and so on can have the slight change) |
| Bag sealing | 1. Woven bag: hem/seam; 2. Cow leather bag: heat sealing/sewing; 3. Composite film plastic bag: heat seal |
