

## Automatic Thermoforming Sausage Vacuum Packaging Machine CK-DLZ420

The automatic thermoforming sausage vacuum packaging machine is simple and accurate to adjust, the cutter has long service life, high precision, no accumulation error, and the operation is more time-saving, labor-saving, and no material waste.

### Sausage Vacuum Packaging Machine Control System:

It adopts 7-inch color human-machine interface touch screen, 1.5KW servo system control, high speed and high precision. Complete security measures are in place.

### Sausage Packing Machine Working Flow:

Lower film automatic forming - Artificial feeding - Upper film automatic forming - Vacuum - Sealing - Print date - Crosscut - Slitting - Finished product output

## Sausage Packaging Machine Function:

1. Upper and lower film automatic marking, photoelectric packaging film punctuation tracking, optical film servo control film, reduce costs, improve product grade.
2. Automatic deviation correction of upper and lower film (to prevent deviation of packaging film).
3. Adopt combined mould, easy to change, one machine multi-purpose, mould with cooling system.
4. Use pollution-free special large vacuum pump, pumping capacity of 200 cubic meters per hour, vacuum pump maximum vacuum up to 0.1 millibar, stable quality, durable and reliable.
5. Cross-cutting can choose wavy, straight, rounded, easy to tear, punch aircraft holes, etc.
6. With corner scrap recycling system.

## Sausage Packaging Machine Features:

1. Convenient operation: PLC touch control, man-machine interface operating system, intuitive and convenient operation.
2. High efficiency: labor saving, high output, two people operate about 6000 bags per hour (based on bag 100 X 70mm).
3. The food contact parts are made of 304 food grade stainless steel, which is easy to clean and does not rust.
4. The linkage heat sealing device can set different working states according to different products, which greatly reduces the breaking rate of articles.
5. With the new slitting device, we can make special packaging such as rounded corners and easy tearing according to customer's requirements.

## Sausage Packaging Machine Use Range:

The sausage vacuum packaging machine is suitable for vacuum packaging of various foods, such as egg, sausage, meat, fruits and vegetables.

Model	CK-DLZ420
Upper film width	396mm
Under film width	422mm
Size of the room	400× (200-400) mm
Speed	90-110pcs/min
Weight	1500kg
Power	10kw
Dimension	5.8*0.9*1.9m
