- c. The powder filling tube extended into the stick former inside to against the misty for during powder packing, and against the outside dust to come into the packaging during production. and the powder feeding won't come to the sealing range so that the sachet sealing rim is clear and sealing well, airtight.
- d. PLC control, Touching screen operation, the whole machine operation is easy and product packaging works is efficient.
- e. The unique technology and design for horizontal and vertical sealing which make the sachet no wrinkle, the sachet looking is perfect.
- f. Packing Speed 30-50bags/min/lane.
- g. This machine usage is widely, also could pack the powder +granule such as fruit flavor powder.

**Main parameters:**

<b>Model</b>	<b>XY-90B-420-4/6 F/Y/K</b>
Bag style	Three/Four sides/stick seal sachets
Bag size	Length: 30-140mm Width: 10-50mm
Packaging film	The maximum width: 280mm
Capacity	30-50 cycles/min/line
	Total packing speed:30-300sahcets/min
Control style	adopt advanced PLC controlling system and convenient touch screen
Pneumatic request	0.65Mpa
Voltage	1 phase AC 220V 50Hz or AC 380V 3 phases 50Hz
Power	2.0/ 2.2Kw
Weight	400kgs
Dimension	1100mm(L)*990mm(W) *2100mm (H)
