

Fully Auto VFFS Powder Pouch Packing Machine LD-720D

Application:

Suitable for which materials requiring high accuracy of measurement or careful handling, such as milk powder, sugar powder, coffee powder, wheat flour, detergent powder, coconut powder, etc.

Kindly Reminder:

We have experienced team of R & D engineers who can customize packaging solutions according to your product characteristics.

Description:

- Simple construct, reliable circulator, easy maintenance.
- The machine adopt the screw pole putting material, adopting servo-code and the microcomputer technology control is the main technology feature.
- Simultaneous code control, sensitive action, low noise, outstanding, reliable measure, speed quickly, high precise soon. Another it can display the measure counter.

Parameter:

Model	LD-720D
Film Thickness	0.04-0.12mm
Bag Length	100-500mm
Bag Width	180-350mm
Film Roll Diameter	Max.320mm
Pakaging Rate	5-55bag/min
Film Width	150-Max.720mm
Measurement Range	4000ml
