

## VFFS Vertical Salt Sugar Aginomoto Packing Machine XYS-500/1000

VFFS vertical packing machine suitable for salt, sugar, sesame, rice, seed etc even granule material packing. Including bag forming filling and sealing.

VFFS Vertical salt sugar aginomoto packing machine is used for automatic weighing and packing for salt/sugar industry. It can achieve bag forming, material weighing, filling, packing, coding and sealing fully automatically under set parameter. It is normally matched with volumetric cup weigher, output conveyor, weight checker and metal detector to form a whole production system.

- Unit configuration: volumetric cup weigher, film roller, coder, bag former, vertical heat sealing, horizontal heating and cutting
- Material: contact parts S.S 304 (or S.S 316L if need)
- Electric parts brand: Siemens/Schneider/Omron/Delta/ABB etc
- Packing speed: (15-60)bags/min
- Filling range: 50g--2000g
- Applied material: sugar, salt and other fine granule material

**Technical Parameter:**

| <b>Model</b>           | <b>XY500</b>  | <b>XY1000</b>          |
|------------------------|---|------------------------|
| Configuration          | Bag-making packing machine<br>+ Measuring cup weigher<br>+ Conveyor |                        |
| Packing speed(bag/min) | 20~70   |                        |
| Measuring range(g/bag) | 250~1000  | 1000~1500              |
| Measuring accuracy     | ±0.5% to ±2%  |                        |
| Bag making size(mm)    | L:190<br>W:110  | L:250~360<br>W:180~280 |
| Power supply           | AC 380V ±5% 50HZ/60HZ   |                        |
| Air consumption        | 0.6Mpa (0.3 ~ 0.6)m <sup>3</sup> /min                               |                        |
| Optional device        | Weight sorter/Metal detector/Lifting elevator                       |                        |
