

Automatic Food Plastic Bag Flow Pillow Packing Machine

Rectangular, square, round, oval round candy combined in one special-shaped finishing automatic packaging machine.

Main Performance:

1. Stable and operating smoothly,
2. The frequency converter is used, the bags were set a long, slow and hesitant,
3. Imports of electrical control system, lcd display, parameter set is simple,
4. Superscript highly sensitive photoelectric eye tracking the exact location so that more precise closure,
5. Temperature controlled by an independent P1D better packaging materials for various films,
6. Large rotating disk with automatic, air package rates the best results.

Product Parameter:

Product name	Pillow Sealing machine
Type	Horizontal
Packing materials	PP,PE,PVC,PS,EVA,PET,PVDC+PVC
Machine speed	30-100 Packs/min
Machine size (around)	L4000*W930*H1370MM
Machine weight (around)	400KGS
Power	220V,50Hz,5KW
Product Height	30-100mm
Film width	90-400mm
Bag length/Bag width	60-500mm/35-160mm
