

## ***Rotary Fill and Seal With Linear Scales for Granules GPB8-200/GPB8-260***

Suitable for granular material, such as Melon seed, nuts, candy, Raisins, sugar, salt, Coffee beans, cookies, crystal monosodium glutamate and other solid material automatic packing.

Premade Pouch Rotary Packing Machine is an automatic packing machine which automatically feeds and picks up pouches, codes, opens the pouches, fills products into the pouches, then seals and outputs.

### **Feature:**

Easy to operate, adopts advanced PLC from Germany Siemens, equipped with touch screen and electric control system, the man-machine interface is friendly.

Automatic checking function: no pouch or pouch open error, no fill, no seal. The bag can be used again, avoiding wasting packing materials and raw materials.

Safety device: Machine stops at abnormal air pressure, heater disconnection alarm.

The width of the bags can be adjusted by electrical motor. Pressing the control button can adjust the width of the clip, easy to operate, and save time.

The parts that come into contact with the materials are made of stainless steel and comply with the requirements of GMP.

**Specifications:**

<b>Model</b>	<b>GPB8-200</b>	<b>GPB8-260</b>
Working Stations Number	Eight	
Pre-made Pouch Types	Heat sealable premade side seal bags, like gusseted bag, flat bottom bags, zipper bags, stand-up bags, spout bags, etc.	
Pre-made Pouch Size	Width: 90 to 200mm	Width: 140 to 260mm
	Length: 100 to 350mm	Length: 100 to 400mm
Capacity	10 to 45 bpm (depending on product and pouches)	
Filling Range	10 to 3000g (depending on the product)	
Power Consumption	2 kw	2kw
Air Consumption	0.4m <sup>3</sup> /min (supplied by the user)	
Outer Dimension	1700*1300*1400mm	1900*1450*1500mm
