

Tomato Ketchup Pouch Packing Machine FSJ-420A

This machine is suitable for packaging, shampoo, milk, soy sauce, chili sauce, yogurt, peanut oil, ketchup, jam, liquid or sauce. It is suitable for food, pharmaceutical, chemical, cosmetics, daily necessities, etc. Industry packaging requirements.

With piston filling metering, all materials in contact with the material are made of stainless steel and non-toxic and wear-resistant plastics, meeting the requirements of food and pharmaceutical packaging.

The packaging speed can be steplessly regulated within the rated range.

Bag length microcomputer adjustment: The bag length is set by the microcomputer, which has the characteristics of accurate bag length, convenient adjustment, simple maintenance and reliable work.

Heat sealing double-channel temperature control: The temperature can be preset by the intelligent temperature controller, the temperature control is accurate, and the good heat balance ensures the sealing quality.

Technical parameters:

Model	FSJ-420A
Bag length	50-300 mm
Bag width	50-200 mm
Power supply (VAC)	220V
Power (KW)	2.5Kw
Max width of roll film	420
Packing speed	5-50 Bag/min
Measuring range	10-100,50-500,100-1000 ml
Air consumption	0.65mpa
Dimensions (MM)	3500x1300x1650
Net weight (KG)	620
