

Sleeve Type Sealing Machine – CE-6030CF

Automatic sleeve wrapping and applies Italian technology, electronic controlling, double sealing and cutting, auto film feeding auto shrink packing soft-drink, book, art ware on salver or not; applies to drinks, beer, mineral water, pesticide and medicine line production.

1. Upper and lower motor driven conveyor system to facilitate film convey
2. The brand" NORGEN" of England air-run control the complete set of working
3. Imported Japan Mitsubishi programmable logic controller (PLC) with stable performance
4. Stick-free Teflon-coated sealing cutter to ensure clear and stick-free sealing lines.
5. Reinforced conveyor motor to ensure steady transport
6. Adopting German advanced technology, elaborating according to European process.
7. Imported converter to achieve 0-12m/min. Adjustable speed range;
8. Large power double fan motor, assure enough circulate wind
9. Ultra-strong cooling system to ensure quick formation after heat-shrinking of products
10. Furnished with anchor bolts for integration with the production line

Technical Parameter:

Model	CE-6030CF
Brand	FULLWELL
Voltage	220-240v/50-60Hz
Seal size (L x W)	600 x 300
Capacity	12-18 sets/min
Air pressure	1Hp/2kw
Conveyor width	100mm
Machine size (L x W x H) mm	210 x 135 x 190
Weight	220kg
