

## OC-PB1/OC-PB2 Granular Premade Bag Packing Machine

The machine is suitable for all granular products, such as: nuts, pop corn, peanut, rice, chips, red date, beans, coffee beans, sesame etc.

### Overview:

1. Easy to operate, adopt advanced PLC from Japan Mitsubishi, mate with touch screen and electric control system, the man-machine interface is friendly.
2. Automatic checking: no pouch or pouch open error, no fill, no seal. the bag can be used again, avoid wasting packing materials and raw materials.
3. Safety device: Machine stop at abnormal air pressure, heater disconnection alarm
4. The width of the bags could be adjusted by electrical motor.
5. It matches with the glass safety door. The machine will stop working when you open the door. So that it could protect the safety of operators. At the same time, it could prevent dust.
6. The packing materials loss low, what this machine is used the preformed bag, the bag pattern is perfect and has a high quality of the sealing part, this improved the product specification
7. With different feeders changed to pack solid, liquid, thick liquid, powder and so on
8. The packing bag suits in extensive range, suit for multi-layer compound, monolayer PE, PP and so on Preformed bag made by film and paper.

### Machine information:

Model	OC-PB1/OC-PB2
Bag width	70-280mm/70-300mm
Bag length	110-300mm/110-400mm
Packing speed	6-32 bags/min
Bag type	stand up bag, pillow bag
Air consumption	7.0 CFM@80 PSI
Powder supply	220V, 50/60HZ
Pneumatic parts	PIAB vacuum generator, pneumatic component airtac from taiwan
