

## ***QGF-ZC Plastic Glass Packing Machine***

Cup butter jam ketchup honey chocolate paste blister packing machine, thermoform fill seal machine is exclusively used in colorful plastic sheet forming, filling, sealing and cutting, it is suitable for the packaging of chocolate paste, margarine, candy, biscuit, toy and etc., The packed products (like cartoon animal, cartoon car, kinder joy egg..) with excellent 3D appearance and looks high class, is the best choice for the high class confectionary, daily use chemical, toy manufacturing enterprise.

This machine adopts with the PLC controlling system, frequency control, double servo motor sending, clear fault display, easy mould changing and simple operation.

Machine working flows: Machine is full automatic.

Plastic Sheet Accurate Forming → Filling → Sealing → Cutting → End-products Discharging

Cup butter jam ketchup honey chocolate paste blister packing machine, thermoform fill seal machine is equipped with import components made in Germany, France, Japan, Korea etc., ensure machine run stably and reliable quality.

Plastic sheet materials: PVC, PS, PET.

## Technical Parameter

<b>Model</b>	<b>QGF-ZC</b>
Description	QGF-ZC Colorful Plastic Sheet Forming Filling Sealing Machine
Power:	380V/3 PHASE/50Hz
Cutting frequency	about 20times/min
Motor power:	1.5Kw
Air pressure:	0.4-0.6Mpa
Air consumption:	About 0.75 <sup>3</sup> /min
Mould cooling:	tap water or recycling water
Max shaping areas depth:	160x250x24mm
Applied forming materials:	PVC, PET or PS
Applied plastic sheet roll max diameter:	380mm
Applied plastic sheet thickness:	0.2-0.5mm
Filling type:	Piston rationed cup filling
Filling error:	≤±0.5g
Dimension (L x W x H):	5300mm x 750mm x 1750mm
