

## **Link-TB-003 Nylon Triangle Inner Bag Tea Packaging Machine**

### **Features:**

1. The outer sealing paper is controlled by stepping motor, the bag length is stable and the positioning is accurate;
2. Adopt PID temperature controller, temperature control is more accurate;
3. Adopt PLC control machine action, man-machine interface display, easy to operate;
4. All accessible materials are made of SUS304 stainless steel to ensure the hygiene and reliability of products;
5. Part of the working cylinder adopts the original imported parts, to ensure the accuracy and stability of its work.
6. This machine additional device can complete the flat cutting, date printing, easy tearing and other functions.

### **Technical Parameters:**

<b>Product model</b>	<b>Link-TB-003</b>
Voltage	220V, 50HZ
Power	3.7KW
Packaging film width	45-75MM
Bag size	L:60-80MM,W:40-80MM
Packing speed	40 bag/min
The weight of the	450KG
Size	1750*740*1950 MM
