

## *XS-A Granule weighing packing machine*

### **Capability and Characteristic :**

Pesticide, fertilizer, veterinary, fodder, mix powder, additive, washer powder, salts monosodium glutamate, cocksbur, sugar, granulate, rice, etc.

1. High precision digital sensor let the filling become more accurate.
2. Microcomputer control system, advanced technology, easy operation, use more credibility.
3. Speed can adjust, automatic amend error, realize higher precision.
4. Double denounce alternate works, packing speed very fast.
5. Strong compatible, easy to concert another packing equipments.

### **Technical Parameters:**

<b>Model</b>	<b>XS-A</b>
Packing specification	50~1000g
Packing speed	1200~2200bags/hour
Packing precision	±0.5% (within 100g±1g)
Power	500W/AC220V 50Hz
Voltage	120Kg
Machine size	L*W*H==600×600×1800(mm)
