Bottle Unscrambler (high speed) YMLPH

The Bottle Unscrambler Machine is used to automatically orient and feed containers into the production line. It can unscramble plastic, metal, and other non-fragile containers.

Features:

- Consists of bottle tank, elevator, orienter and conveyor.
- Can handle a variety of container shapes including: round, square, rectangular, oval, tapered, F-style, etc. with few to no change parts.
- Fully automatic, easy to set up and operate, no skilled personnel required.
- Hand wheels and calibrated settings allow for ease and repeatability of changeovers.
- PLC controls, speed adjustable.
- Machine will stop/start automatically.

Technical Parameters:

- Capacity: 60-280pcs/min (customizable)
- Power supply: 220V 50/60Hz
- Power: 1.2kw
- Net weight: 600kg
- Dimension: 2400×1200×1500mm
