

High speed wet glue labeling machine YQTB-200

Features:

- Wide range of application. It is suitable for the single/double/multi-sides of the round bottle, Flat bottles, square bottle and irregular bottle.
- The labeling effect is good: The biggest characteristic of this equipment is the imitation of human labeling, completely subvert the traditional way of labeling, thoroughly solved the problem, spherical stick mark wrinkle make possible differentiated product labeling.
- High positioning accuracy: Using mechanical rotating positioning, advantage of the characteristics of the bottle itself looking for anchor point, greatly improve the stick mark stability and accuracy.
- Easy to adjust: The device can be adjusted , especially suitable for a bottle type of the taper, and change the different size of the product is simple and easy to adjust, need not use tools. to avoid bad labeling affect caused by machine shaking, all direction adjusting modules will be locked after the machine finish adjusting. So it will insure the production process smoothly and the labeling location consistently.
- Good stability.

Technical Parameters:

- Label width 30-120mm
- Label length 10mm—250mm
- Bottle diameter 10mm—125mm
- Glue type Chemical glue, casein glue
- Conveyor height 950-1200mm adjustment
- Labeling speed 8000-12000 bottles/min(12 nozzles)
- Power consumption 380VAC \pm 5%, 50Hz 3KW
