

DXD-400A Vertical Forming, Filling and Sealing Machine

This is suitable for automatic packaging particle materials such as sweets, peanuts, nuts seeds, grain, coffee and tea

Features:

- This is suitable for automatic packaging particle materials such as sweets, peanuts, nuts seeds, grain, coffee and tea.
- Reasonable design, simple structure.
- Controlled by single-chip computer, stepping motor, convenient and correct bag length setting.
- Simple, fast speed regulation.
- Optional: continuous-packaging control device, gas-filled device (air source supplied by users).

Parameter:

Packing speed	30-50 bags/min
Bag-making size	(L)60-250mm (W)60-150mm
Filling range	40-500g
Film width	140-320mm
Packing materials	OPP/CPP PET/PE
Film thickness	0.04-0.08mm
Film roll diameter	Max. 320mm
Power supply	AC220V 50Hz 2.5kw
Machine dimensions	(L)850x900x1750mm
Machine weight	320kg
