

YB-LT100 Automatic Cylinder Round Bottle Labeling Machine

This machine is suitable for labeling round bottles and round objects in various industries. It can be connected with a code printer, output shifts or production records, and automatically monitor the production status in advance. The equipment fully meets GMP requirements.

Performance features:

- 1) The labeling machine is accurate and accurate.
- 2) No label, no label, automatic calibration, automatic detection.
- 3) The machine can be used alone or automatically connected with other devices.

Technical parameter:

- Production capacity: $\phi 18$ - $\phi 100$ mm
- Production capacity: 120bottles/min
- Labeling accuracy: $\leq \pm 0.3$ mm
- Label width: 10-200mm
- Label width: 10-100mm
- Power: 1KW
- Power supply: 1Ph.220V/50V
- Net weight: 300KG
- Machine dimension: L2000*W650*H1500mm
