

## *10 Nozzles Lipstick Filling Machine CM-KHJ-10*

Model CM-KHJ-10 nozzles lipstick filling machine silicone lipstick is made of stainless steel, it is durable and widely use for many kinds of lipstick. It fill 10pcs per time, and available to switch into 12or 6 nozzles. The special design of this machine is it has preheating system for metal mold.

### **Features**

- 20L double tank, with SUS304 material, and the contact parts is SUS316L material. Three layers tank with heating and stirring;
- Piston filling system is driven by servo motor with numerical control; Rotary valve is driven by air cylinder;
- Timing preheat system with signal light is provided for mold before filling;
- Stirring device is driven by motor;

- Mold lifting is drive by servomotor.
- Simple and precise operation by using colorful touch screen interface with numerical control in all aspects;
- Irregular bottles can be basically filled.

**Technical Parameters:**

<b>Technical Parameters</b>	
Model	CM-KHJ-10
Outer dimension	1300 x 1000 x 2180 mm (L x W x H)
Voltage	AC380V(220V), 3P, 50/60HZ
Power	8KW
Filling nozzle	12 nozzles
Lipstick mold	Silicone rubber mold
Lipstick shape	Water Drop, Nail Drop, Moon Drop (According to product)
Air supply	0.6-0.8MPa, ≥300L/min
Output	2160-3600 pcs/hour
Operator	1~2 persons
