SRT-115 Corner Printing Labeling Machine

Features:

1. Adopt all imported printing engine, clear print content and simple setup
2. Equipped with Japanese Pro-face touch screen, the operation is simple and fast.
3. The main mechanism is made of SUS304 stainless steel and A6061 high-strength aluminum alloy, which conforms to GMP regulations.
4. Function matching: American Zebra print engine, Japan SATO print engine
5. Other special functions (such as QR code, barcode reading detection)

Parameter:

- Labeling speed: 30 / min (depending on the size of the sticker and the content of the print)
- Labeling accuracy: ±1mm
- Voltage power: AC220V 50Hz single phase 1.5KW
- Scope of application: instant printing labeling of various production batch numbers, barcodes, QR codes, chamfer seals, etc.
