

Automatic Flour Filling Machine TTP-02

Automatic Powder Weighing Filling Capping and Labeling Machine. It is suitable for automatic weighing filling capping labeling of various fluidic or low-fluidity powder materials like milk powder, coffee powder, medicine powder, chemical powder, meal replacement powder, etc

Technical Parameters

Model	TTP-02
Filling Weight	10-5000g(customizable)
Bottle diameter	Φ30-Φ140mm(customizable)
Bottle height	40mm-200mm (customizable)
Production speed	10-40 Bottle/min
Measurement accuracy	≤500g, ≤±1% ; > 500g, ≤±0.5% (Varies due to the characteristics of the material)
Power	3.5kw
Working Pressure	0.6-0.8MPa
Control system	PLC
Filling head	one head/two heads can be customized
one head can be customized	350-550kg
