

## Full-Automatic MAP Tray Sealer DJHV-550 Series

DJHV-500 Series Full-Automatic MAP Tray Sealer is the new generation MAP tray sealer which is elaborate research and development by WENZHOU DAJIANG. According to the massive feedback information of our first generation MAP tray sealer from customers in the past years, DJHV-500 Series MAP tray sealer had been improved and optimized in the aspect of running efficiency, stability and energy conservation.

Thanks to the high standard gas exchange rate, high-precision modified atmosphere mixed rate and smooth & beautiful sealing effect, DJHV-550 Series MAP Tray Sealer have excellent performance in the shelf time, freshness and nutrient color of food packaging.

DJHV-500 Series MAP Tray Sealer suitable for modified atmosphere packaging of cold fresh meat, chicken and duck bittern products, cooked food, red meat, cheese, fruits and vegetables.

### Technical Specification

Model	DJH-550
Sealing Plate	4600×224mm
Max. Depth Of Tray	75mm
Max. Width Of Film	540mm
Packing Speed	4 cycle/min
Working Pressure	0.8-1.0 MPa
Air Filling Precision	≤ ±1%
Power Consumption	7.5kW
Connection*2	3PH/380V/50Hz
Net Weight	750kg
Machine Size   W x L x H (mm)	3300×860×1300
Vacuum Capacity	100 m <sup>3</sup> /h
