

## *KENO-F105 Auto Can Feeding, Filling and Packaging Machinery*

The machine can feed, weight, fill, and waste-discharge automatically. The machine is suitable for packing milk powder, solid beverage, grape sugar, and rice powder, etc.

### **Technical Parameter**

- Packing weight: 10-5000g
- Weighting range: 1-6000g 1g (with a resolution of 1 g)
- Packing precision:  $\leq 1\%$
- Packing speed: 20-50 can /min
- Power supply: 380/220V 50-60 Hz
- Power: 2kw
- Weight: 500kg
- Dimension: 1750\*2700\*2300mm
- Container Volume: Diameter: 50-180mm, height: 50-350mm Cylinder containers with a diameter of 50-180mm and a height of 50-350mm
