

Capsule Banding Sealing Machine NSF-600

- Touch screen control, multi-system integration, high degree of automation.
- Evenly glued, a gluing technology locks the sealing effect.
- The rubber box and the body adopt the clutch design, which can be easily disassembled and easy to clean.
- The original plastic chain plate forward and in contrast transport function, effectively extend the transport distance.
- Using a reciprocating conveying mechanism, automatic drying, does not affect the shape of the drug inside the capsule.

Technical Parameters:

Model	NSF-600
Capsule size	00#,0#,1#,2#
Voltage	Single-phase 220V/50Hz
Power	2.0kw
Max.output	≤36000pcs/hour(water-soluble sealing material)
	≤50000pcs/hour(water-insoluble sealing material)
Water-soluble sealing With Liquid Temperature	35°C-40°C
Circumstance Requirement	Temperature around 25°C; humidity 40%-65%
Dimension	2000×850×1750mm
Net Weight	1000kg
