6. No aluminum foil or screw cap automatic removal function.
7. The function of dynamic graphic display on the touch screen is simple to operate and the interface is good.
8. Automatic fault diagnosis, comprehensive real-time audible and visual alarm and display system.
9. The torque of cap can be adjusted in a certain range.

Technical Parameters

Model	LF-0601C
Max. speed	Max.20-60 BPM
Bottle size	Bottle diameter:φ25~φ70 mm
	Bottle height:50~200 mm
Tablet/capsule size	Diameter : Φ3—Φ13mm
	length : 3 – 21 mm Pills, tablets, soft& hard capsules, and other solid medicine.
Power supply	AC380V 50Hz
Compressed air & Air consumption	0.49 –0.7MPa,200L/min
Power	5.6kW
Machine Dimension	4257 (L)×3297(W)×6239(H)
Machine weight	Approx.1200KG (with elevator
