

YL-250 High Speed Cellophane Overwrapping Machine

YL-250 Cellophane Overwrapping Machine is mainly suitable for the outer decoration packaging of square box packaging items in the industries of medicine, food, daily chemicals, cosmetics, film and television products, rubber, IT, etc. It can be linked with cartoning machines and inkjet printers for production.

Functions and Options

1. No need to regulate the height of two work tops of the machine when the mold is replaced, no need to assemble or dismantle the material discharge chains and discharge hopper. Reduce the replacement time of the mold four hours to the present 30 minutes.
2. New-type double safeguard mechanisms are used; hence other spare parts will not be damaged when the machine runs out of step without the stop of the machine.
3. Original unilateral hand swing device to prevent from shaking the machine adversely and the non-rotation of the hand wheel during the running of the machine can secure the security of the operator.
4. New-type double-rotary film cutting cutter can ensure no need to mill the blade during many-year use of the machine, which overcomes the defect that the traditional stationary single-rotary film cutting cutter was easily worn.

Technical parameters

Package material	BOPP film and gold tear tape
Speed	60 packs/min
Product size mm	90*60*20m
Power of supply	AC220V 50Hz, 6.5Kw (single phase)
Weight	600kg
Power consumption in KW	5kw
Outline dimensions (L x W x H)	(L)3000×(W)800×(H)1500mm
Control system	Button control
