

XY-800BF Powder Packing Machine

Model XY-800BF is our Powder Packing Machine. It is used for bag packing of powdery materials such as substitute meal, five grain powder, milk tea powder, instant coffee, seasoning and so on.

Performance Characteristics

1. The powder special spiral metering machine cooperates with packaging machine to complete automatic metering, fling and sealing of the entire packaging process;
2. The machine adopts servo drive system which has the advantages of high precision and stable performance;
3. The open-type material bin of stainless steel is easy to clean.
4. This machine is equipped with safety protection in line with the requirements of enterprise safety management;
5. The intelligent temperature controller is used to make the temperature control accurate, thereby ensuring the seal is beautiful and smooth;
6. The use of touch screen control operation maximizes the whole machine of accuracy control, reliability and internationalization.

Application

Automatic measurement and packaging for powdery materials such as substitute meal, five grain powder, milk tea powder, instant coffee, seasoning and so on.

Technical Parameters

Model	XY-800BF
Measurement range	3-30g(Can be customized)
Measurement accuracy	±0.3g
Packing speed	25-45 bags/min
Bag size	L 80-150 xW 30-100 (mm)
Packing material	PET/PE, OPP/PE, Aluminium coated film and other heat-sealable composite materials
Power	2.5 KW
Dimension	L 1100XW 900XH 1600 (mm)
Weight	350Kg
