TE-75/150 & C-150 Serialization Machine

The Hicof AMACODER is a revolutionary serialization machine with tamper evident labeling, based on an intermittent box transport mechanism. The line, made with Swiss craftsmanship is only 1.08 m long, providing high quality output and low reject rates.

Features

1. Comprehensive solutions, coding lines, and end-to-end IT systems (from coding lines to government databases)
2. Innovative mechanisms and cloud-based IT – unmatched low investment and operational costs with short delivery times
3. Extremely short coding lines
4. Easy operation -> No experts required

Applications

AMACoder TE is ideal for pharmaceutical manufacturers looking to enhance their serialization processes, particularly in ensuring product security and regulatory compliance.

Specification

Feature	TE-75	TE-150	C-150
Description	Serialization and TE labeling machine, highly flexible	Serialization and TE labeling machine, high speed	Continuous machine, high speed
Machine Width	1080 mm	1080 mm	770 mm
Machine Depth	1150 mm (1500 mm[1])	1150 mm	1180 mm
Machine Height	1650 mm	1650 mm	1300 mm

Box Width	30–200 mm	30–200 mm	30–200 mm
Box Depth	55–300 mm	55–200 mm	55–200 mm
Box Height	15–150 mm	15–150 mm	15–150 mm
Machine Speed	Up to 80 pieces/minute	150 pieces/minute	150 pieces/minute
