

## HC-G210/260/300 Powder Rotary Premade Pouch Packing Machine

Suitable for all kinds of shape state properties of materials (rice, coarse grains, nuts, spicy puffed, chestnut, liquid, etc.); the Powder automatic metering packaging production line is a new generation of packaging equipment independently developed by the Grepack R&D team. After years of testing and improvement, it has become a fully automated packaging equipment with stable and usable properties. The packaging mechanical performance is stable, and the packaging size can be adjusted automatically with one button, which is fast and convenient.

### Technical parameters

| Model             | HC-G210  | HC-G260          | HC-G300          |
|-------------------|--|------------------|------------------|
| Station           | 8 station  | 8 station        | 8 station        |
| Packing Speed     | ≤70 bags/min   | ≤72 bags/min     | ≤65 bags/min     |
| Bag Width         | 90-210mm   | 130-260mm        | 160-300mm        |
| Bag Height        | 120-380mm  | 150-400mm        | 150-400mm        |
| Type Of Bag       | Preformed Bags(Flat Bag, Stand-up Bag, Zipper Bag, Handbag , M bags, etc |                  |                  |
| Voltage           | 380V 50/60Hz   |                  |                  |
| Air Consumption   | 500L/min   |                  |                  |
| Power             | 8KW  |                  |                  |
| Machine Weight    | 500kg  | 600kg            | 650kg            |
| Machine Dimension | 1700x1140x1470mm   | 1850x1250x1520mm | 2100x1500x1520mm |
