

NKCS -30R Semi Automatic Ropp Cap Sealing Machine

N.K Industries, located in Ahmedabad, India, is a leading manufacturer, exporter, and supplier of the cutting-edge Semi Automatic ROPP Cap Sealing Machine Model NKCS-30R. Designed as the perfect engineering solution for startup industries with low production demands, this machine delivers exceptional results in high-quality ROPP sealing and capping.

The NKCS-30R boasts an impressive output of 30 bottles per minute, depending on the operator's proficiency. Its motorized sealing head ensures precise and reliable ROPP capping, guaranteeing consistent and efficient performance.

What sets this Semi Automatic ROPP Cap Sealing machine apart is its versatility, accommodating containers of various shapes, including round, square, and triangular, with minimal change parts required. This adaptability opens up a world of possibilities for different packaging needs, providing maximum flexibility for your business.

With its sensor-less vector control variable frequency drive, the machine allows for easy speed adjustment, giving you complete control over the capping process. This feature optimizes performance based on your specific production requirements, resulting in enhanced efficiency and productivity.

Experience the cutting-edge technology and unparalleled performance of the NKCS-30R Semi Automatic ROPP Cap Sealing Machine from N.K Industries. Elevate your packaging capabilities and streamline your operations with this reliable and versatile solution.

Contact us now to learn more about how the NKCS-30R can revolutionize your capping processes and take your business to new heights.

Features:

- Compact and multipurpose unit
- Front-mounted operating panel for easy access and operation
- Motorized sealing head for precise and reliable sealing
- Minimal change parts required for different container diameters
- Low noise level and energy-efficient operation
- Adjustable bottle height gauge for quick and easy setup
- Variable sealing pressure to accommodate different cap sizes and gauges

Technical specification:

Model	NKCS -30R
Type of Capping	ROPP Type Capping
Output/Hour*	20 to 30 bottle per minute depending upon Operator efficiency
Number of ROPP Capping head	1 Nos.
Power Consumption (KW)	1 KW
Electrical Connection	230 V , Single phase , 50 HZ
ROPP Cap Diameter (mm)	18 mm to 32 mm (With Change part)
Container Diameter (mm)	Ø 22 mm to Ø 100 mm
Container Height (mm)	58 mm to 240 mm
Overall Dimension	1000 mm (L) x 720 mm (W) x 1400 (H) Approx.
Net Weight	200 Kgs. Approx.
Gross Weight	350 Kgs. Approx.
Change parts required	Cap Die if cap diameter change.
