

## *AET-BC70P/S Electrical Shrink Tunnel*

### Description

- **Cost Optimization:** Energy-saving design and high-efficiency operation reduce both energy and labor costs.
- **Easy Operation:** Digital controls simplify use, minimize the learning curve, and shorten the adaptation period.
- **Safety First:** Robust and durable construction lowers maintenance frequency and enhances operational safety.
- **Flexible Application:** Highly adjustable design adapts to various production line requirements.

### Features

- **Suitable for various bottle types**  
Improve equipment utilization
- **High-performance design**  
Durable and energy-saving, reducing production costs
- **Digital temperature controller**  
Controllable and stable quality
- **Anti-scalding design**  
Improve work safety

### Specification

Rated Voltage	3P / 220V~415V
Equipment Dimensions	700 x 750 x 1700 mm
Power	15KW
Equipment Weight	130KG
