

## *DBF-770LD Mini Bag Sealer Handheld Vacuum Portable Sealer*

The DBF-770LD continuous sealer is designed for continuous sealing, ideal for efficient packaging on large-scale production lines. It works by continuously feeding packaging materials into the sealing area.

### **Product Description**

#### **Advantage**

- **Mobile Stand:** Equipped with a floor stand and movable wheels for easy relocation.
- **Chrome-Plated Stand:** The stand surface is chrome-plated for durability and easy cleaning.
- **Efficient Heating:** Features full copper heating blocks for improved sealing performance and faster heating.
- **Superior Cooling:** Uses full copper cooling blocks for better heat dissipation, reducing bag adhesion issues.
- **Adjustable Settings:** Allows for adjustments in conveyor belt speed and sealing bar temperature.
- **Durable Gears:** Features iron gears for increased durability.
- **Precision Engineering:** High machining accuracy, low noise, and stable temperature control.
- **Printing Wheel:** Equipped with a printing wheel with pure copper letters for clear and durable markings.

## Technical Parameters

<b>Model</b>	<b>DBF-770LD</b>
Voltage	110/220V 50-60Hz
Pump Power	0.5kw
Sealing Speed	0-12m/min
Sealing Width	6-15mm
Temperature	0-300°C
Weight	32kgs
Certification	CE ISO
