

JT-215H High Speed Horizontal Round Bottle Automatic Labeling Machine

The JT-215H automatic label dispensers is designed for non-standing small cylindrical containers or products that are not vertically stable (round bottom or top-heavy) including ampoules, vials, crayons, tube, lip balm containers, small batteries, ect.

Technical Parameter:

Label Size	L(10-350mm)*W(10-200mm)
Labeling speed	500-600 bottles/min
Bottle diameter	8-95mm (customizable)
Labeling accuracy	±1mm
Label Reel Diameter	Inner 75mm ; outer 360mm
Net weight	400KG
Machine size	2800×1500×1700mm(L*W*H)
Power supply	2400W , 220/110V , 50/60HZ (customizable)
Main device	Siemens PLC;SICK labels photoelectric sensor;
	Japan Panasonic Attached Wheel motor ; Italy MOTOVARIO Transport motor
