

SH-VTGF8A 8 Heads Automatic Servo Gear Pump Quantitative Shampoo Laundry Detergent Viscous Liquid Paste Filling Machine

Main Feature

- ▶ Filling is controlled by servo gear pump, it can achieve quantitative filling and the filling volume can be set directly.
- ▶ Suitable for filling viscous liquid or paste like shampoo, laundry detergent, lotion, etc.
- ▶ With feeding pump, filling material can be supplied continuously. Quantity of anti-dripping filling nozzles can be customized as needed.

Parameter

- Machine model: SH-VTGF8A
- Power supply: 110/220V 50-60HZ 5KW
- Filling pump: Gear Pump
- Max flow rate: 120L
- Filling range: 50-5000ml
- Bottle size: Customizable
- Working speed: About 24-40 bottles/min (based on 5L filling volume)
- Filling accuracy: About $\pm 0.5\%$
- Air pressure: About 0.5-0.8MPa
- Machine size: About 4920*1270*1950(L*W*H)
- Package size: About 2720*1350*2120mm
- Package weight: About 630kg
