

SH-FS50U Automatic Single-dose Tube Ceramic Pump Single-use Serum Eye Essence Strip Liquid Filling Sealing Machine

Main Feature

- ▶ This machine is designed for packaging single-dose tube.
- ▶ Machine can finish tube feeding, liquid filling, ultrasonic sealing, tube tails cutting, finished tubes discharging automatically.
- ▶ Filling is controlled by ceramic pump, it has high precision, which is good for small doses filling.
- ▶ Machine can be connected to a labeling machine for automated production.

Parameter

- Machine model: SH-FS50U
- Power supply: 110/220V 50Hz/60Hz Single Phase
- Power: 2.6KW
- Air pressure: 0.6Mpa
- Recommend filling range: 0.5-15ml
- Sealing speed: 13-15 rows/minute
- Filling accuracy: $\pm 0.05g$
- Sealing height: 50-150mm
- Ultrasonic frequency: 20KHz
- Sealing diameter: 50-1350mm
- Body material: 304 stainless steel
- Machine size: L1187*W1106*H1553mm
- Machine weight: About 350kgs
