

MT-280 High Speed Full Automatic Plastic Bag Pouch Labeling Machine Enhance Packaging Efficiency And Labeling Precision

The MT-280 Full Automatic Plastic Bag Labeling Machine is specifically engineered to meet the high-speed, high-precision labeling demands of modern flexible packaging. Whether it is food pouches, stand-up bags, cards, or other flat surfaces, the MT-280 delivers stable, accurate, and rapid label application. It significantly reduces labor costs, completely eliminates manual labeling errors, and is your ideal equipment for boosting capacity and optimizing brand image.

Technical Parameters

Flat Labeling Machine:	
Voltage	220V 50/60HZ
Width of Label	10-110mm
Length of Label	20-200mm
Speed	30-60 pcs/min
Paging Machine:	
Paged way	friction or Reversal wheel
Object size	Length: 65-500mm
	Width: 70-300mm
	Thickness: 0.02-5mm
