

Injetion Blow Moulding Machine SQ-6

This machine is mainly suitable for plastic package with being blown up from side. Such as the plastic bottles for eye drop, fruit, juice, milk, fruit milk, medicine, cosmetic ect. The machine adopts screw extruding blow molding technology in its extruder. And it is adopted auto-control temperature and FM activator. The machine is combined with electro motion, pneumatic power and mechanics. The main character of this machine is its simplicity & stabilization of operation. It has been famous for its excellent performance, low maintenance ratio, less consumption of electricity & low noise. May match according to the correlation product this aircraft truncates the mouth equipment automatically.

Specification:

Max.Bottle Containment	1000ml
Prodective capacity	1500-5000 pcs/hr
Allowed Mould width	125mm
Allowed Mould Thickness	118mm
Blowing Air pressure	0.4-0.7Mpa
Rated Power	12kw
Size of Main Frame(L.W.H)	3300×1200×1500mm
Weight	1500kg
