

Cellophane Wrapping Machine Manufacturer CK-BZ200B

The cellophane wrapping machine is a highly automated packaging equipment, widely used in the packaging industry, can be a variety of three-dimensional packaging boxes. The packaged products are beautiful, waterproof, long storage time. The cellophane wrapping machine not only helps to improve product quality and added value, but also makes the product more convenient in transportation and sales and makes your product more competitive in the market.

Cellophane Wrapping Machine Features:

1. The protective device is installed in the transmission part of the machine, which can reduce the wear of the parts and make the machine last longer.
2. The cellophane wrapping machine adopts the latest structure design, making it more compact, stable and easy to operate.
3. The cellophane wrapping machine realizes the self-determination fault prompt, which can enable the operator to discover the fault in time and not waste the raw material.
4. The cellophane wrapping machine uses a multi-function digital converter, which is very convenient when changing product parameters, making the machine realize stepless speed change.
5. When changing packaging products, you can choose different molds, which is convenient and quick to change.
6. It is an automatic packaging equipment, flexible operation, can achieve automatic feeding, automatic counting.

This cellophane wrapping machine is suitable for perfume manufacturer, cosmetic manufacturer, etc. And as a cellophane wrapping machine manufacturer, we will be strictly tested before shipment to ensure the quality. Our machines use high quality parts in the manufacturing process, which can effectively reduce the running wear and help to improve the service life of the machines. And we also provide a comprehensive guidance service and after-sales service for the cellophane wrapping machine to ensure customers adopt the correct method during installation and use.

Model	CK-BZ200B
Packaging speed	30-80boxes/min
Packaging materials	BOPP
Length of packing size	50-160mm
Width of packing size	20-100mm
Height of packing size	10-50mm
Machine dimension	2800*790*1550mm
Machine weight	750kg
Power	4.5kw
Voltage	220V 50Hz
