

Semi Automatic Labelling Machines

Worldpack semi automatic labelling machines sport a compact table top design for ease of handling. They are also easy to operate as no change parts are required for varied sizes of containers and label. Our machines are suitable for glass, plastic, metal, tin, Aluminium and composite containers, tins, jars and bottles. These labellers can print 8-10 bottles per minute and are ideal for customers requiring a lower rate of production. Made out of 304 Stainless Steel, these machines offer tremendous rigidity, durability and a neat compact design.
