

ZX-600S Automatic Corrugated Carton Unpacking/Loading/Sealing All-in-one Machine

Product Description

1. Automatically complete the unpacking, forming, bottom bending and bending, and at the same time complete the bottom tape sticking, collect the goods and put them into carton by manipulator, top bending and sealing, all of the steps finished by the machine, saving time and labor
2. A wide range of short carton, easy adjustment of different sizes of carton
3. The whole operation is stable and reliable, the packaging effect is solid and beautiful
4. Configuration is high, the main components use international famous brands
5. The equipment is simple, easy to maintain
6. Automatically correct the carton straight angle

Main parameter:

Model	ZX-600S
Performance of machine	About 400 cases/hour
Performance of manipulator	12 times/min (each one.)
Box Sealing method	Tape sealing or hot melt sealing
Paperboard box	Min 300*250*200mm
	Max 600*500*500mm
Power supply	AC 380V 50/60HZ 7.5KW
Air supply	0.6-1.0 Mpas
Air consumption	<1m3/min
Machine size (L*W*H)	About 5000*2200*2900mm
Weight	3000(kg)
Machine material	Aluminum alloy, stainless steel 304
