

## MT-220 Automatic Flat Labeling Machine

It is suitable for flat bottle labeling in the pharmaceutical, food, daily chemical and other industries. Simple structure, compact appearance and powerful function. It adopts card position adjustment, easy to switch labeling of different workpieces, advanced electric eye, high detection sensitivity of objects and labels. Synchronous belt traction, the mechanical stability is greatly improved. Suitable for self-adhesive labels, self-adhesive films, electronic supervision codes, barcodes, etc., and suitable for Flat bottle labeling such as plastic bottles, glass bottles, and metal bottles.

### Technical Parameters:

Model:	MT-220
Working Method :	Full Automatic
Labeling Speed:	10-40 M/Min
Attached object size:	30-80mm (Can be customized according to needs)
Max label Width:	100mm (Can be customized according to needs)
Inner diameter of label roll:	76mm
Outer diameter of label roll:	330mm
Air Source	4-6KG 30L/Min
Voltage	220V/50HZ 2000W
Labeling Accuracy	±0.5mm
Machine Size	2000*800*1500mm
Net Weight	250kg
