

Sticker Labeling Machine For Round Bottle YSY-663

Sticker labeling machine for round bottle is a modern mechatronics product with excellent and reliable performance. Clean and hygienic without mold.

After labeling, it is beautiful and firm, will not fall off by itself, and has the advantages of high production efficiency. Good labeling quality-flat labeling without bubbles and wrinkles. Chinese and English operation interface for various parameter adjustments.

Product Features

1. Flexible application-stand alone or connected to assembly line production.
2. Good labeling quality-flat labeling without wrinkles.
3. Intelligent recognition-automatic bottle separation, no labeling without objects.
4. Speed can be adjusted-freely adjust as needed.
5. High stability-precise and stable control.
6. Optional function-customized according to demand.
7. Conveying mechanism-the product is conveyed to the labeling position, after labeling, it is conveyed to the receiving mechanism.
8. Labeling brush-press the label attached to the product tightly.
9. Labeling head-the core component of labeling, which realizes labeling function.
10. Touch screen-Chinese and English operation interface for various parameter adjustments.
11. Electric box- labeling machine electric control center, arrange various controllers and PLC.

Parameters:

Model	YSY-663
Product Name	Sticker Labeling Machine For Round Bottle
Product Type	Three Sides Automatic Labeling Machine
Labeling Speed	1--50m/min (80-200b/min)
Labeling Precision	±1mm
Max Width of Label	190mm
Product Labeling Size	Φ30-100mm
Paper Roller Inner Diameter	Φ76.2mm
Paper Roller Outer Diameter	MaxΦ330mm
Over Dimension(mm)	3048*1200*1500mm
Total Power	3-4kw
N.W (kg)	320kg
Voltage	220V single phase/380V three phases /50HZ
About Us	China Sticker Labeling Machine For Round Bottle Suppliers
