

FK605 Desktop Round/Taper Bottle Positioning Labeler

FK605 Desktop Round/Taper Bottle Labeling machine is suitable for taper and round bottle, bucket, can labeling.

Simple operation, large production, Machines take up very little space, can be easily moved and carry at any time.

Operation, Just tap automatic mode on the touch screen, and then put the products on the conveyor one by one, labeling will be completed.

Can be fixed to labeling the label in a specific position of the bottle, can achieve full coverage of the product labeling, also can be achieve Product front and back labeling and double label labeling function. Widely used in packaging, food, beverage, daily chemical, medicine, cosmetics and other industries.

Technical Parameters:

Parameter	Date
Label Specification	Adhesive sticker, transparent or opaque
Labeling Tolerance(mm)	±1
Capacity(pcs/min)	20 ~ 45
Suit product size(mm)	φ25~φ120; H:25~150; Can be customized
Suit label size(mm)	L:20 ~ 380; W(H):20 ~ 130
Machine Size(L*W*H)(mm)	≈1260*970*890
Pack Size(L*W*H)(mm)	≈1280*1000*920
Voltage	220V/50(60)HZ;Can be customized
Power(W)	120
N.W(KG)	≈100
G.W(KG)	≈130
Label Roll(mm)	ID:>76; OD:≤260
