

Automatic Shrink Wrapping Machine YC-4535 / YC-4525

L-bar Sealing and Shrinking Machine is widely used in packaging requirement for batch production, high efficiency, auto film feeding and punching, auto film wrapping, sealing and cutting, manual adjust film guiding system and in-feeding conveyor for different width and height products.

Features:

- Especially For Thin and Small Items Up to Speed 1500 pcs/h
- Cutter Coated with Teflon, Not Sticky, Free of Cracks
- Anti-Cutting Device
- Device energy and Electricity Saving
- Human+Machine Operator
- Stainless Steel Heating Tube

Technical Parameters:

Model	YC-4535	YC-4525
Name	Automatic L Bar Sealer	Electric Driven Type Shrink Film Cutting Packaging Machine
Machine Size	L1830*W850*H1550mm	L1300*W715*H1455mm
Electrical	3Phase 220V/380V 50-60Hz	3Phase 220V/380V 50-60Hz
Power	2KW	10KW
Packing Speed	1~25packs/min	20-40 packs/min
Cutter size	L550*W450mm	L1000×W450×H250mm
/		
Tunnel size		
Machine Weight	250kg	185kg
Max Temperature	300°C	250°C
Air	5.5kg/cm	/
Packing size	L+H≤450/W+H≤350mm (H≤100mm)	L1000×W450×H250mm
Table Height	800mm	800mm
Film	POF	POF
