

## Automatic Single Head Tube Filling Machine PTF-60

Automatic Single head tube filling machine is precision built on sturdy welded MS frame completely enclosed in stainless steel sheet and doors are providing to facilitate the servicing of machine.

### Operation:

The feed Tube moving on Round rotary plate 1st station filling Done After filling tube moves to another station in which tubes first fold done after that tube moves in another station in which 2nd fold done after second fold tubes moves in other station in which coding done after that another station is ejection in which tube ejected in the conveyor or in box & You will get complete finishing tubes with the help of tube filling machine.

### Technical Specification:

Model		PTF-60
Output/minute		30 to 40 in single head
		60 to 70 Tubes double head.
Direction of Movement		Left to Right Rotary
No. of Sealing Head		1 & 2
Electrical Specification**	Main Motor	2 HP / 415 Volts / 50 Hz.
Height of Hopper**		Dia 400 & h 500
Machine Dimensions**		800 mm (L) x 800 mm (W) x 1550 (H)
Case Dimensions		1200 mm (L) x 1000 mm (W) x 1850 (H)
Net Weight		450 Kg.
Gross Weight		580 Kg.
Change parts required		(A) Tube holder
