

Automatic Pallet Stretch Wrapping Machine T1650F

Wrapping Machine widely used in glass products, hardware tool, electric product, paper, ceramic, chemical, food, beverage, building material and so on. Improve logistic efficiency, reduce goods loss during transporting, has waterproof, dustproof, reduce product cost, improve packaging grade.

Technical Parameters:

Model	T1650F
Wrapping product size	L(500-1200) mm × W(500-1200)mm
Wrapping height	L type:1800mm H type:2400mm Y type:2800mm
Packing efficiency	20-40 pallet/h
Rotary speed	0~15rpm rotary speed, adjustable, steady start and stop
Turntable size	Dia:1650mm Height:78mm
Turntable weight capacity	2000kgs
Film carriage system	Pre- Stretch film carriage, pre-stretch up to 250%, automatic transport film
Up and down upright	Double chain structure, adjustable up and down speed by transducer
Control system	PLC programmable
Machine weight	700kg
Machine size	2745mm×1650mm × (2260-3260) mm
Power	Turntable 0.75kw, film carriage 0.4kw, upright 0.37kw
