

Round Corner Granule Packing Machine DXDYK-300B

Features:

- Perfect packaging appearance: unique, advanced and mature technical assurance.
- Let the customer's products get the perfect packaging in a short period of time, fast, accurate and hygienic.
- PLC control system design can meet your special requirements.
- Different bag types can meet the needs of different customers.
- Different feeding and metering methods are selected according to different materials.

Specification:

Model	DXDYF-300B
Packaged Product	granule products
Packing Capacity	1-50ml
Packing Speed	20-40 bag/min
Sealing Form	back side seal
Film Roll Diameter	≤320mm
Horizontal Seal Width	5-10mm
Vertical Seal Width	5-10mm
Air Source Pressure	0.4-0.8Mpa
Power	1.3KW
Bag Size	L: 40-150mm W: 20-100mm
Voltage	380V or 220V or made accordingly
Machine Size	L750* W800* H1800mm
Machine Frame Material	stainless steel
Appearance	stainless steel and nickel plated
Display Screen	7 inches color touch screen
Control System	Japan Mitsubishi PLC control system
Metering Method	pneumatic pump filling machine
Cutting Method	knife or flat knife cutting
Heat Sealer	optional for netting, straight or plain lines
Packaging Materials	OPP/ CPP, CPP/PE (laminated film can be heat sealed)
Tracking Method	electric eye recognition tracking or numerical control bag length
